

We Focus on Doing Chemistry!

Chemo Dynamics CAN Deliver **Schedule II – V Controlled Substances!**

- Morphinan alkaloids
- Barbitals
- Nal derivatives
- Fentanyl derivatives

Other Capabilities

- Products requiring multi-step or enzymatic synthesis
- Boronic acids
- Crown ethers
- Combinatorial building blocks
- Indoles
- Imidazoles
- Pyrimidines
- Organometallic compounds
- Amino acids
- Small peptides
- Steroids
- Chiral compounds
- Reference standards
- API manufacturing
- Orphan drugs
- Heterocyclic compounds
- Silane polymers
- Advanced intermediates

With our help, you can begin to develop your controlled substance drug product line!
